THE BENEFITS OF A SERIOUSLY **GOOD** SERVICE

Welcome to your Hunter price guide.

I'm Joe and I'm here to help you through the price guide.

It's packed full of useful content and images to make your product selection easier.

Every page has been designed to be as informative and easy to use as possible as we make every effort to continue our 'seriously good' service.

Joe

PS: We would love to know what you think, so if you have any comments or suggestions on how we can continue improving our guide drop us an email at: marketing@hunterplastics.co.uk

HERE TO HELP...

Keep your eyes peeled for my handy hints and tips throughout - there's some real gems that might save you time and money.

How can you spot them? It's easy just look for one of these symbols.

Plus, in the bottom right corner of most pages you'll find a handy colour reference key to make selecting your product even easier.

GOOD TO GO

It's doing the simple things well, that sets us apart. We listen and we know what you want. You want easy access to us, you have it.

You want peace of mind with the products you use, you have it. You want the products when you ask for them, you have it.

	Code	Pack	£.Each
	GR600	5	£10.05

Replaces standard seal. Allows connection to most deep profile systems.

GOOD TO KNOW

The slotted fixing points on 125 angles mean you can fix directly to the fascia and they can be adjusted too!
Less brackets - less fuss!

GOOD TO KNOW

125 brackets are super strong, they can hold up to 75kg!

Each product code is prefixed with a colour.

Example BR125, where 'B' = BLACK

GOOD TO KNOW

Offsets

- 1. Push-fit Points up!**
Your push-fit socket should always point upwards.
- 2. Don't screw - glue!**
Secure your solvent sockets with solvent cement.
- 3. Always support!**
Install bracket as close to the offset as possible.

GOOD TIP

Want to connect to 110mm drain?
Use an Outlet Adaptor (R716) to connect Stormflo to 110mm downpipe, see p34

Corner and Double Branches

Designed for commercial installations and houses with multiple bathrooms

Corner branches save space by enabling direct connection of two WCs or WC floats from two directions at 90°

Double branches allow connection of back-to-back WCs and WC floats from opposite directions

GOOD TO KNOW

GOOD TIP

To avoid dislodging or damaging rubber seals, always ensure pipe ends are chamfered and lubricated.

	Code	Pack	£.Each
110mm	DS663	1	£47.63

PROTECT YOUR STACK!

Always make sure the lowest branch of your soil stack is the right distance away from the invert of your drain.

Height	Min. Vertical	Solution
Up to 3 storeys	450mm	1 x DS663
Up to 5 storeys	740mm	2 x DS676 & a piece of pipe

Pssst... Going even taller than 5 storeys?

Connect the ground floor into their own soil stack or make connections direct to drain. If you get to 20 storeys you'll need to do this for the first floor too!

INSTALLATION

STEP ONE

Before starting work, identify position of drain, run a plumb-line and fix gutter outlet. Check fascia is level and determine fall (if required).

STEP TWO

Fix support bracket at furthest end and run a string-line to the outlet.

STEP THREE

From outlet, fix support brackets at a maximum of one metre centres.

STEP FOUR

Insert gutter to the 'insert to here' line on the first fitting. At the other end of the gutter mark the position of the next fitting on the fascia.

STEP FIVE

Remove gutter and fix next fitting using your mark line. Ensuring fittings are level by using a string line.

STEP SIX

Fit length of gutter and stop end, with support bracket at furthest end.

STEP SEVEN

Fit top offset bend to outlet, then using bottom offset determine length of pipe required.

STEP EIGHT

Fit a pipe clip below the bottom offset, then at a maximum of two metres apart.

STEP NINE

Check water tightness by blocking off any outlet and performing a static water test.

Tip for Surefit Clips: Insert the rear gutter edge under the back retaining lip of the snap lock clip. Ensure that it is fully home. With all fingers over the front edge of the gutter, pull down, while pushing up on the fitting with your thumbs until the gutter snaps into position. **DO NOT REMOVE THE SUREFIT CLIPS.**

RAINWATER CALCULATIONS

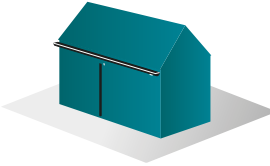

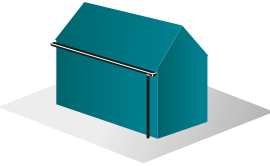

On face value, guttering installation is a piece of cake, but it is amazing how many installers get it wrong.

It's simple with Hunter Surefit!

An easy to use rainwater calculator can be found on our website www.hunterplastics.co.uk

Step Two: Select Your CONFIGURATION and Profile

Flow Capacity:		Gutter Fixed Level		Gutter Fixed at 1:350

Brett	✓	✗	✓	✓	✓	✓	✓	✓

Hunter products are compatible with many other manufacturers' systems and with traditional cast iron and aluminium systems.

Step One: Calculate Effective Maximum Roof Area

This can be calculated by using the following formula (see diagram below):

$$B + \frac{C}{2} \times \text{length of roof} = \text{area in m}^2$$

Calculating effective roof areas where gutter angles are installed

Effect of angles – If a length of eaves gutter includes an angle, the flow in the gutter will be impeded and its capacity reduced by 15%. Where an angle occurs in a length of gutter served by two outlets, the reduction factor of 0.85 should only be applied to that part of the gutter in which the angle obstructs the flow. These figures are based on a rainfall intensity of 75mm/hr, roof pitch not exceeding 50°, gutters running full.

Refer to BSEN 12056, Part 3: Roof drainage, layout and calculations.

GOOD TIP

TIP

Installation Tips

- For gutter fixings onto wooden fascias use 25mm x No.10 round head rust proof screws
- For gutter fixings onto PVC fascias use 35mm x 5mm No.10 parallel thread zinc plated or stainless steel, recess pan head, single-start self tapping screws
- For downpipe supports use 32mm x No.10 screws to masonry wall plugs

GOOD TO KNOW

Water seal

BS EN 12056-2:2000 states that traps which discharge to a soil stack should have a 75mm seal.

This is not always possible directly at the outlet due to size restrictions, so other seal depths can be installed...

- **50mm water seal** can be fitted to baths, shower trays & basins without plugs and having spray taps.
- **38mm water seal** can be used on ground floors when connecting to flat bottomed appliances that discharge to a back inlet gully.

All our traps have 75mm Seals unless otherwise stated.

32mm

40mm

50mm

TUBULAR SWIVEL TRAP

- Both inlet and outlet swivel to allow an easy connection, even in confined areas.
- Telescopic inlet for maximum adjustment.

GOOD TO KNOW

Part H of Building Regs requires ventilation of a soil stack to prevent water seals being drawn.

Multikwik offers a number of unique and innovative solutions for ventilation of drainage systems.

Plus there's an Air Admittance Valve in the Hunter range p56

32mm

	Code	Pack	Box	£.Each
40mm	SBK040D	1	25	£13.53

NOZZLE

Spigot suits 1" and 3/4" hose connection.
Blanking cap provided – must be removed when connecting appliance.
Non return valve to prevent backflow

	Code	Pack	Box	£.Each
40mm	NK001	10	300	£1.94

STRAIGHT NOZZLE

	Code	Pack	Box	£.Each
40mm	NKT001	10	180	£1.33

Use with 40mm compression waste appliance hose connection.

GOOD TO KNOW

Multikwik Nozzles allow a simple connection for washing machines and dishwashers.

The spigot can be cut back to provide a 3/4" BSPT male thread.

And they're supplied with a blanking cap and non return valve to prevent the backflow of water.

Remember to remove the blanking plug when you connect your appliance!

EASY BOSS

A Simple Connection

From 32mm or 40mm Push-fit or Solvent Weld pipe to anywhere in your 110mm soil stack!

There's no straps which makes it ideal for limited access installations.

And it's installed in 6 really easy steps.

1. Drill a 57mm hole

2. Ensure seal is in position

3. Insert Easy Boss into hole

4. Twist in the Easy Boss connector

5. Use a strap wrench and hand tighten

6. Insert the pipe

110mm EASY BOSS

	Code	Pack	Box	£.Each
Grey	MKEB4032G	1	30	£19.68
Black	MKEB4032B	1	30	£19.68

40x22mm CONDENSE ADAPTOR

Adapts to condense line. Fits most sizes of overflow. remove sleeve first.

	Code	Pack	Box	£.Each
40mm	EB40R	1		£2.80

Use the EB40R and adapt your Easy Boss to accept Overflow pipe.

It's designed to accept pipe from 16.46 to 24.28mm in diameter.

Perfect for condense line!

GOOD TIP Ideas

WC CONNECTORS

STRAIGHT

Selecting your WC Connector

Measure the **INNER** diameter of your pipe

Measure the **OUTER** diameter of your Spigot

Then take a look at the dimensions provided on the individual connectors to find the best matches!

Code	Pack	Box	£.Each
MKC2B90	1	8	£23.50

Converts a 'P' trap pan into an 'S' trap pan with adjustment and flexibility for final connection.

MULTICLIK – 90° BEND WITH BOSS

Extends from 405 to 740mm

Spigot 97-108mm | Pipe 99-105mm

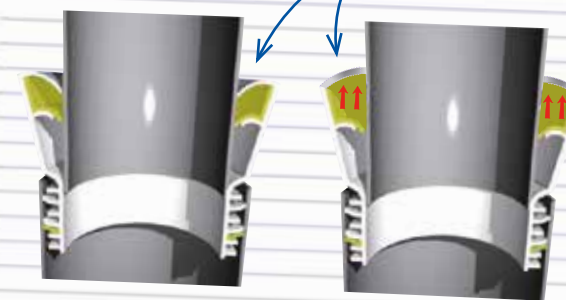

Code	Pack	Box	£.Each
MKC2BB90	1	8	£27.58

Converts a 'P' trap pan into an 'S' trap pan with adjustment and flexibility for final connection.

GOOD TO KNOW

Sealing Flanges

When connecting a WC Connector to the pan spigot the sealing flanges must be pushed inside with the pipe.

Don't pull the other sealing flange out over the top of the pan spigot - it may lead to leaks!

GOOD TO KNOW

Multikwik WC Connectors are made from EVA and are designed to be flexible, so don't worry if your pipe or spigot are not true.

Quality In Built...

British Standard states that a solid ball of 80mm must pass through pipework unaided.

All Multikwik Pan Connectors including those with Boss upstands meet this requirement, reducing the chance of blockage and expensive remedial costs.

Kwiknut...

GOOD TO KNOW
All Multikwik toilet seats* have the 'Kwiknut' feature, so you can place the nut anywhere on the thread and tighten!
Saving up to 38 turns compared to a traditional washer/nut assembly.

* Applies to MKKN001, MKKN002, MKKN003 and MKKN004

GOOD TO KNOW

Make your installation easier and quicker with the Trapped Shower Gullies for vinyl flooring:

1. Compact

One of the most compact gullies on the market

2. Adaptable

ABS anti-slip or stainless steel lid, horizontal or vertical outlet, 50mm or 75mm seal depth and outlet options of 40mm, 50mm or 110mm – the choice is yours!

3. Secure

Unique locking ring system – for more security!

SQUARE GRATE & RISER

Code	Pack	Box	£.Each
SG2T	1	1	£50.50

CLASSIC GRATE & RISER

Code	Pack	Box	£.Each
SG3T	1	1	£46.07

ANTI-VANDAL GRATE & RISER

Vandal resistant

Code	Pack	Box	£.Each
SG4T	1	1	£46.07

GOOD TO KNOW

Mix and match your shower gullies for tiled flooring:

Pick from one of four gully body options and choose a grate and riser set to match your bathroom style.

SG1T - Two-in-one dual grate

SG4T - Anti-vandal grate

SANITARY SYSTEMS

CUSTOMER INFORMATION

PRODUCT INFORMATION

Special lengths

A 5% surcharge will be applied to special lengths of extruded product. Over 250 quality lengths to pro rata price will be charged. (Minimum length 1 metre).

When ordering, please state colour, code & quantity. E.g:

COLOUR	CODE	QUANTITY
B (BLACK)	R10	200

This price list supersedes all previous issues & all prices exclude VAT.

CE MARKING

For the latest copies of the declaration of performance please enter 'Hunter CE Marking' or 'Multikwik CE Marking' into Google™.

PRODUCT PHOTOGRAPHY

Photographs are for representation only and may vary to the actual product. Colours are a guide only.

TRADEMARKS

The following are registered trademarks of Hunter Plastics:

- Hunter
- JOBS A GOOD'UN
- Foundry Finish
- Regency
- Surefit

QUALITY

Quality is one of our core principles:

- Products made with care under ISO9001 & ISO14001 certified system.
- Hunter Plastics products hold many 3rd party approvals, where appropriate these are detailed in the product listing.
- As part of our ongoing quality improvement processes, we reserve the right to alter our products & ranges without notice.

CONDITIONS

All goods are sold according to Hunter Plastics Ltd standard conditions of sale which are available on request.

We make every effort to maintain or reduce costs that are under our control, however fluctuating raw materials and fuel prices have a dramatic effect on our manufacturing costs. We aim to provide you reasonable notice when we implement a price increase, but reserve the right to change prices without prior notice.
